Best Practices for Biomedical Research Data Management

Module 6: Biomedical Ethics
What Does the IRB Want From Me?

Allison Blodgett, PhD, CIP, UMass Medical School

This video will walk through the process of submitting a research project to an Institutional Review Board. This will provide a detailed overview of the IRB process and how the requirements are tied to creating a data management plan.

CC BY NC SA

Is it human subjects research?

EXAMPLE	ANSWER
A chart review of multiple patients to add to our understanding of a condition or treatment	
A case study of an interesting patient	

Is it human subjects research?

EXAMPLE	ANSWER
A chart review of multiple patients to add to our understanding of a condition or treatment	YES
A case study of an interesting patient	NO

“What does the IRB want from me?”

- (How) will you recruit participants?
  - When? Where? What will you say or post?
- (How) will you obtain informed consent?
  - What will you say? Will people have enough time to decide?
- Will you document consent in writing or not?
- What will you ask participants to do?
- What are the risks for participants? Benefits?
- How will you respect participants’ privacy and keep their information confidential?

“What does the IRB want from me?”

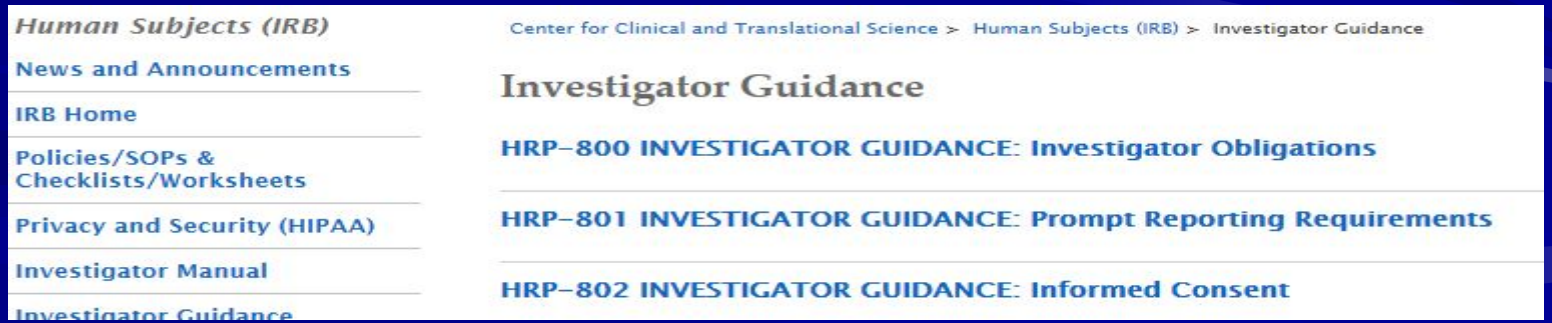
- Collect only what is needed
- Justify what is needed
- Limit identifiers
- Anonymize at the earliest opportunity

“What does the IRB want from me?”

- Is your application complete?
  - Did you answer all of the questions?
  - Did you include all of the supporting documents?
- Is the information consistent throughout?
- Did you leave enough time for IRB review?

“What does the IRB want from me?”

- Know and adhere to:
  - The research as approved
  - The data use agreement (if one exists)
  - Data retention requirements
  - Institutional requirements



“What does the IRB want from me?”

- Watch for changes in regulations and institutional policies, procedures, forms, etc.

“What does the IRB want from me?”

- Watch for changes in regulations and institutional policies, procedures, forms, etc.

Federal rules may be changing
